

IRB REVIEW OF INTERNAL RESEARCH

Note: This form is approved by the SKC IRB for review of surveys or other research proposed by SKC staff or faculty that is primarily designed for use within the SKC campus. If the proposed research involves protected subjects or more than minimal risk to participants, or relates to subjects that may be the intellectual property of the CSKT, you must complete the regular IRB review process. The IRB reserves the right to request that a full protocol be submitted if more information is needed to review the purposes, methods, or means of dissemination for the proposed research. This approval is valid until the research tool or methods is changed OR for a maximum of THREE YEARS from the date of approval. Contact the Chair or Secretary of the SKC IRB if you have questions.
